Synergy

WHY SYNERGY?

Strategic Partnering relationships with Defence Programs

Synergy's collaborative approach to risk sharing

Synergy's experience and performance of program and project management skills

Synergy's approach to delivering the whole of contract-life workforce

Synergy's experience and performance of the One Defence Capability System

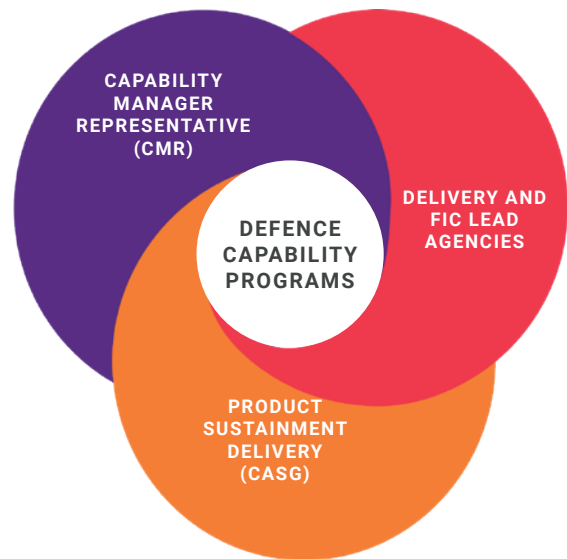

DEFENCE CAPABILITY PROGRAM SUPPORT (DCPS)

We understand the Defence environment and the diverse stakeholder groups that are involved in Capability acquisition and sustainment programs. DCPS team members are deeply engaged in current Defence capability programs, such as our ongoing strategic partnerships with the Land Mobility and Support Program, the Capability Learning and Development Program, and as a provider of a PMO to the Information Warfare Division.

DCPS provides value to its clients by:

- Sharing our deep understanding of Defence strategy, policy, and the contemporary operating environments.
- Deploying a highly experienced program and project management team to guide you through the complexity of Defence Capability Program Management, leveraging industry best practise.
- Building bespoke resource plans for the continuity of the team and on-demand services to ensure our clients have prompt and continuous access to necessary expertise and capacity over the program's life cycle.
- Offering the aforementioned services that include significant local reach-back capability which supports rapid deployment of diverse expertise in support of our clients.

WHY CHOOSE US?

- Trained in One Defence Capability System
- Security Cleared (NV1 and above)
- Experienced with Defence environment
- Reach back to broader Synergy capabilities
- Canberra based with national reach

DEFENCE CAPABILITY PROGRAM SUPPORT(DCPS)

THE DCPS APPROACH

ESTABLISHING AND MANAGE THE PROGRAM SUPPORT OFFICE

- Map and understand the current state.
- Application of Agile/PRINCE2 and MSP methodologies across the client organisation.
- Provide an integrated, synchronised and consistent approach across multiple projects.
- Develop an effects-based approach to project outcomes consistent with strategic guidance.
- Establish/Streamline information flows, governance arrangements and reduce overhead.
- Deliver a full 'end-to-end' experience for the client through a single strategic engagement lead.

- Build an agile and responsive team with the right attitude, aptitude and approach.
- Assess communication channels and enhancement requirements.
- Build a coherent and replicable suite of supporting documents, submissions, templates, briefs and narratives.
- Identify any quick wins and strategic areas for improvement.
- Recommend changes to workflow, SOPs, business plans etc to drive efficiencies.
- Mobilise dedicated Synergy team at key points for a force multiplier effect.
